## PRESS STATEMENT 16<sup>TH</sup> NOVEMBER 2012

As a representative and spokes organ of the Mbunda Speaking People in Zambia, Cheke Cha Mbunda Cultural and Writers Association is refuting the statement in the Times of Zambia of 16th November 2012, attributed to have been issued by Chief Chiyengele of the Mbunda in Mongu, as the views or position of the Mbunda tribe of Western Province.

The statement as reported is that; ***“the Mbunda tribe of Western Province welcomed the resignation of Barotse Royal Establishment (BRE) Ngambela” and that Ngambela was the source of problems surrounding the Barotseland Agreement especially his strong stance to agitate for the secession of Western Province. We the Mbundas feel that his resignation is an issue that cannot go without commenting on. The Ngambela was someone very oppressive to other native tribes of Western Province and it is good that he has resigned”***. If Chief Chiyengele really uttered those words then he was giving his personal opinion and not of the Mbunda in Zambia.

We as Cheke Cha Mbunda have met the Ngambela on several occasions since he took over the position, the last being at the last Barotse National Council where we represented the Mbunda people of Zambia at the Ngambela's invitation. We have since spoken to him on phone a day following his resignation. To the contrary, one of his strong positions is to regard all people of Western Province to be one and the same. This is a statement he repeatedly assured us in our previous meeting with him, and this is what he wanted to achieve during his tenure. Through him he had assured the Mbundas to be given a platform to discuss their grievances in Western Province.

Its is true, he took a strong position on secession as a leader and not in his individual capacity. Some people accusing him today neither met him nor responded to his invitation at the last Barotse National Council.

The Mbunda position has all along been very clear, we do not support secession but the restoration of the Barotseland Agreement 1964. However, on the Ngambela resignation, we have missed a link for ironig out our grievances with our Lozi brothers.

Ndandula Libingi

Thank you Mr. Chairman for the wise action. We should always maintain the Diplomatic stand in these issues and not direct confrontation even in our own area , Mbundaland , we are using what I term "Diplomatic Offensive" and it is really working, we have used it in Kangamba recently and people are amazed and even enemies have become friends.

Good Luck Mr Chairman , May the Almighty God continue blessing you and give you the right guidance and direction.

Ba Chairman

We commend you for a timely intervention to refute the statement reportedly attributed to Mwene Chiyengele. Being out of the country at the moment I never saw the Times of Zambia story. But if it is as quoted in the press release, then I consider the Mwene’s statement unfortunate, and uncalled for. The Mbundas need to dialogue with BRE and it is unfortunate that the person with whom the dialogue has started has left the ship. I hope that we can engage with the new Ngambela in a meaningful way.

All the best

Va Chairman, njakulahela munenduka vwino. Your response is commendable, notwithstanding that the conflict between Mwene Chiyengele and the BRE is becoming obvious by the day. What's not clear is if u did get a coment from the Mwene to establish his views whether he was misquoted or not? In the statement it been mentioned that you had phoned the Ngambela a day after his resignation, in the same vein we should also have phoned the Mwene. If an effort was made but without success we should have found a way of putting it without sounding to be at longerheads with him. I know how difficult it is to deal with us. Va Chairman just be strong don't be discouraged. The challenge we have is on how to do damage control if the Mwene has sidestepped. We should never appear to contradict our Chiefs even if they are in the wrong. We have to painstakingly apply damage control. I know it's difficult but we have to.

1. If the Litunga was snabbing the Ngambela and we appear to stand with the Ngambela, we stand to lose face in the eyes of the BRE. In which case the Mwene's comments maybe welcome to BRE because they would be speaking the same language.

2. There maybe many other factors at play : "ngoma ya ndumba ya munu yali lindalinda". The Government, armed with the pro press (the Post included) would like to isolate and employ the divide and rule tactic in the BRE. The BRE is maybe playing a game of "test and see". Both ways there is bound to be sacrificial lambs.

3. We therefore need to be cautious on how we comment on these issues as we apply "mwiini ku mbanje mwiini ku katali" while recognising that this is an issue of 'Vamuka va mulivuli-uva pande vavavala, uvechele hanga vavavala'. Va Chairman those are my views. I have copied a few people only. I didn't want to broadcast it.

Good day n God bless!

Thanks.

Hello Ba Mwata,

Thank you for your bold reaction to the Press statement by Times of Zambia for the allegation made against Cheke cha Mbunda Cultural and Writers Association towards the resignation of the Litunga Royal Establishment Gambela. It's well noted and I do hope NEC will convene a meeting soon to discuss many other issues.

### STATEMENT

21 November 2012

Following the Press Statement issued in Lusaka by National Chairman Ndandula Libingi dated 16<sup>th</sup> November, 2012; I wish to bring to the attention of the Mbunda speaking community and all other stakeholders that, in terms of a meeting held on 26<sup>th</sup> September, 2012 in the Kaoma District Council Chamber, the issues of the Restoration of the Barotseland Agreement of 1964 and the subsequent secession of Western Province from the rest of Zambia were tabled for discussion. The meeting therefore resolved as follows:

1. Mbunda speaking people have **no** cause to champion the restoration of the BA of 1964 as this is the instrument used by Lozis to subjugate other tribes with impunity. The conditions in which Mbundas live among the Lozis can only best be described as *tribal apartheid* as experienced by blacks in South Africa based on racial origin. The meeting therefore resolved that instead of fighting for the Barotseland cause whether secession or the restoration of the Barotseland Agreement of 1964, Mbundas should spend their energies fighting for the Restoration of the **Mulambwa / Chiyengele Treaty** which provided for mutual respect and friendship between the Aluyi and Mbunda peoples and prohibited either side from enslaving the other, (Cheke Cha Mbunda 2012 calendar refers). The treaty has since been abrogated so that Mbundas are ridiculed and threatened with deportation back to Angola after more than three (3) centuries stay on this territory.
2. The meeting denounced advocates of secession and labeled calls for secession as a primitive way of presenting grievances. The meeting expressed fears that if secession was allowed to succeed, it would give way to tribal conflicts in a quest for tribal liberation given the oppressive nature of the Lozis. Lozis have no regard for Mbundas and their culture so that a Lozi is comfortable speaking Chinyanja and Chibemba and claim they cannot understand Mbunda simply because they despise its speakers. We are handling a case in which two Lozi policemen (one male and one female) tore open a *likithi* in Mayukwayukwa area to lock up the individual on grounds that a Lozi woman running away from a *likithi* injured her child strapped at her back. In the early 1990s, a Lozi young man named Terence Muyunda beat up a young *likithi*, **Katotola** until blood gashed out because Muyunda holding his pupil teacher girlfriend then at Kaoma (Naliele) Primary School refused to give way to the *likithi* on the Naliele road. When the matter was reported to Kaoma Police, the police asked for the *likithi* to come to the

police station for them to record a statement. The **Katotola likithi** does not speak and one wonders in what form the *likithi* was going to report to the police – as a *likithi* or as a human being? The matter died a natural death. In short the Lozis have no regard for our culture or traditions. As Lozis are naturally not fighters, the battles Mbundas fought on their behalf have long been forgotten, the Mbundas are now irrelevant and can therefore best be assumed to be their slaves or subjects. Therefore in view of the foregoing, we find that the sentiments attributed to Chief Chiyengele in the Times of Zambia tabloid, **are a true reflection of the situation in the Western Province**. As Kaoma district we are in full support therefore of Chief Chiyengele on his observations on the resignation of Ngambela Wainyae Sinyinda. The strong position taken by Sinyinda should not be misconstrued to regard all people of Western Province as one rather to subjugate the rest of the tribes and bring them under the total control of the Lozis. Lozis talk about us being one but refuse to accept us as being equal.

In conclusion, we wish to recommend that in future, matters surrounding the BA of 1964 and the secession campaign, the opinion of those who live in the jurisdiction purported to be Barotseland should take precedence on the opinion of those who live outside this jurisdiction. It is unfair and not right for Mbundas who have settled outside Western Province to mould opinion and impose such opinion as the official position without any form of consultation with the affected section. In Mbunda tradition, we don't publicly rebuke our traditional leaders even where they may have been wrong. Therefore to issue a press statement denouncing Chief Chiyengele is a bad sign which should be avoided in future. As Kaoma district we have therefore made our position clear, we look forward to hearing from our Mbunda brothers and sisters in Monguu, Kalabo, Lukulu, Senanga and Kabompo – areas affected by the Barotseland Agreement of 1964 and calls for secession.

Thank you.

**Du Shefu Mbandu,**  
District Chairperson

Please follow the events as they unfold in Barotseland carefully. Mbundas would not like to be caught up in a crossfire, click this link <http://www.zambianwatchdog.com/2012/11/24/barotse-royal-establishment-says-post-lied-litunga-supports-secession/>. Our situation needs careful and diplomatic approach . We attended the BNC meeting and we know what was obtaining there. I await responses to all the people you have copied before I can comment.

Remember my email after your committee was ushered in office, to respect and follow the Cheke Cha Mbunda Constitution. Cheke Cha Mbunda is not political, I am not a politician but I don't think even in political parties, things are handled this way. I believe there is a seniority to follow. A District Committee cannot issue "Press Statements" or write letters direct to the Government without the knowledge of National Executive Committee. It may amount to vote of no confidence on N.E.C which should result in an AGM elections or serious disciplinary action against such a District Committee. Remember, you are not on N.E.C., the best you can do is to inform N.E.C. and seek approval before you take such action.

Regards,

Ndandula Libingi

### CLARIFICATION

We are disappointed with the reaction of the National Chairman to views freely expressed by people on a matter that has a direct bearing on their lives. We were mistaken in the first place to think that our National Chairman represented the collective views of the Mbunda people on issues of common concern hence views of our people were published to other Mbundas for analysis and comment so that a general direction and position of Mbundas is established on the Barotseland question. It has however since dawned on us that the National Chairman has a personal agenda and a personal interest in the Barotseland question and it seems he has already made a personal commitment to it so that anyone who speaks to the contrary offends him personally. In our view Chairmanship is not about dictating the way forward or coercing others to see things the way you see them.

The learned Registrar of Societies, Hon. Andeleki has not closed the door to the registration of cultural associations, so that if Cheke Cha Mbunda wishes to back the Lozis in their quest for tribal supremacy, those who are of contrary opinion may proceed to form, **'Likalabandthi Cultural and Writers Association'** to champion the liberation of Mbundas from Lozi domination using the Mulambwa / Chiyengele Friendship Treaty.

We therefore do not see any logic in quarreling over a matter that is in the public domain and therefore subject to opinion of those affected. Election is the most modern tool used to arrive at consensus when dispute arises rather than issuing of threats to voluntary members.

We will wait for comments from other Mbundas who do not have personal interests in the Barotseland issue.

Thank you.

**Du Shefu Mbandu,**

District Chairman.

ENI VAKULUNU, MBUNGA YAVA MBUNDA,

I am dismayed with the apparent in-fighting going on among us.

Firstly, there was the copperbelt committee's disagreement with the National Chairperson over the Baroste Issue. Then the National Chairperson's disagreement with His Royal Highness Chief Chiyengele over the same issue, and now the Kaoma Committee against the National Chairperson!

Why can't we resolve these issues through the AGM. I remember that the National Chairperson indicated willingness to step down or indeed not reocnsting.

I do not wish to say who has gone wrong, because there could be underlying factors which I do have facts about, but one thing is certain; an individual is not an association. So we can not solicity to register another one because of one person. Let us kindly uphold our common interests above our personal agenda.

Naana eni va Mbunda, are we focussing on what we must achieve as a group or our personal gratification?

I WOULD SUGGEST FOR THE NEC OF CHEKE CHA MBUNDA TO MEET URGENTLY AND SET THE DATE FOR THE AGM, AND LET US ALL SHOW OCMMITMENT BY ATTENDING;

Let us not tear each other apart because we need each other in this battle.

Your Majesty,

I thank you for your sentiments. However, I am not shocked. We have been infiltrated in order to weaken Cheke Cha Mbunda because of our stance of avoiding confrontation with our Lozi brothers. They would like to see the confrontational position of the Nkoyas, that is why, whenever Times of Zambia contacts the Nkoyas to comment on developments in Western Province, they will not contact Cheke Cha Mbunda but Mwene Chiyengele because he is confrontational. What the Chief has not realized is that, the Nkoya do not speak through their Chief Mwene Mutondo but through a royal spokesman or Kazanga Cultural Association Chairman.

We have no Senior Chief for Mbundas in Zambia. Therefore, no Mbunda Chief can speak on behalf of all Mbundas in Western Province. They are free to speak on their individual chieftom matters, but not speaking on behalf of all other Mbunda Chiefs without consultation. I know for one, that Mwene Kandala's position on Western Province is different to Mwene Chiyengele's position. That is why we want to put all our Mbunda Chiefs together to sort out such issues. But, who will do that? We have not workers! All we hear are sentiments to fight or be confrontational with Lozis. Who will fight, remains to be seen. Things are easily said than done.

I will however implement your suggestion.

Wishing for your continued guidance to us, and may The Almighty God continue showering you with his wisdom and blessings.

Ndandula Libingi.

Thank you for that vision, little do our Chiefs realize our environment to see who is surrounding us. We do have a lonely battle to fight against the Lozi and yet we still want to allow ourselves be caught in the crossfire (just like the way you had put it) Our position should be to have no comments at all, because neither the Lozi or Nkoya are on our side right now if anything they just want to see us divided so that we loose direction. May the Almighty guide you and usher you with wisdom as you hold the Chiefs' meeting so that we find the right platform thereafter. May the Lord lead us in the right direction.

The District Committee structure above contravenes the Cheke Cha Mbunda Constitution, as the Constitution at Chapter 7, Section 11, Article 2 provides for only seven (7) District Committee office bearers. This is as a result of working in isolation,

without notifying and seeking guidance from the National Executive Committee. Any election of a Provincial, District and Branch Committees is supposed to be authorized and observed by a N.E.C. member, as was the case in the election of the previous Committee. This again, is because one of the functions of the National Executive Committee is: ***Appoint, control through supervision of all Provincial, District and Branch Committees, National Sub Committees and regulate general membership of the Association and liaise with the Mbunda Speaking People Group, their Leaders and their Royalties***, according to Chapter 4, Section 8, Article (ii) of the Cheke Cha Mbunda Constitution.

Above being in violation of the Cheke Cha Mbunda Cultural and Writers Association Constitution, and therefore rendering the Kaoma District Committee structure illegal, ***I, the National Chairman, in defending and protecting our Constitution and with powers invested in me under Chapter 5, Section 9, Article (iii) of the same Constitution declare the office bearers in the Kaoma District Committee, not provided for by the Constitution as null and void.***

However, the rest of your case will be tabled at the Extra Ordinary N. E. C. meeting scheduled for Saturday, 8th December, 2012, which I urge you to seriously consider to attend with your representation.

Looking forward to meeting you then.

Va Chairman, I seek clarification. Which chairman is invited from Kaoma? Is it the newly elected or the one who was in the previous committee? Or has the same maintained his position?

Mr. Kalunga Mulyata,

The position in Kaoma is that the immediate past Chairman Chotela Muzaza passed on early this year. Cheke Cha Mbunda had no representation at his funeral. On returning from the Lithathi Lya Miondo in Angola, King Mbandu III gave express instructions to us from Kaoma to immediately constitute a District Executive Committee to oversee the welfare of Cheke Cha Mbunda in Kaoma district. A meeting was called in September, 2012 and the current committee was chosen.

Thank you.

This Palace NEVER issued "Express instructions to instal a committee" without the knowledge and concern of the National Executive its not normal. All Cheke cha Mbunda Committees are instituted and directed from the National Executive because there is a Constitution which MUST be followed by every one and its not a Traditional matter to be DIRECTED by this Palace. If there is anything , this Palace will only contribute to the deliberations and not Instruct as alluded by you Mr. Do Kalyangu Mbandu in your response to a question let us put issues straight the way they are supposed to be and not involve this Palace where it has not contributed.

Kind regards and God bless

### **TO THE ENTIRE MBUNDA FRATERNITY:**

Carefully study the article below titled, ‘*Kaoma District Committee Chairman*’ and authored by Mr. Ndandula Libingi. To us this marks the end of any dealings with the despotic leadership of the National Chairman. If the National Chairman were the founder of or personally owned Cheke Cha Mbunda, we would simply have abandoned Cheke Cha Mbunda to found our own and champion the liberation of the Mbunda people. But after a careful thought, we discovered that Cheke Cha Mbunda was founded by our own parents for the good of succeeding Mbunda generations and therefore Mr. Libingi is but a tiny dot in the Mbunda world. Cheke Cha Mbunda is not on sale to the Lozis, who desperately need Mbundas in their struggle for tribal supremacy. And since Mr. Libingi found us in Cheke Cha Mbunda when he defected from Likumbi Lya Mize, he has no legitimacy whatsoever to determine whether we have a part to play in Cheke Cha Mbunda or not. He has in the past quarreled with Dr. Maliti to a point of Cheke Cha Mbunda almost breaking up. He has most recently insulted His Royal Highness Chief Chiyengele in a press statement. Mr. Libingi has antagonized almost everybody in Cheke Cha Mbunda in his pursuit of selfish interests. He has been slow to realize that Chief Chiyengele interacts with Lozis on a higher frequency than does the National Chairman himself. And for that matter, Lozis have a unique behavior so that when they are in Western Province they are hostile to Mbundas and are only friendly when they are on the line of

rail.

We are also mindful that Mr. Libingi's behavior arises from an illusion that he now owns Cheke Cha Mbunda but for us who know the truth do not subscribe to the notion or impression he has created that **Libingi is Cheke and Cheke is Libingi**. We are now confident that this is in fact the beginning of the downfall of this tyrant. We also agree with the notion that overstaying builds some individuals into dictators. This is the more reason why in politics there is a constitutional limit to the number of terms of office an individual may serve. We strongly believe that Mr. Libingi has *illegally overstayed* provoking the urgent need for change if Cheke Cha Mbunda is to reinstate confidence among Mbunda speaking people.

Literally in everything, Mr. Libingi acts alone on the pretext that NEC has decided when in fact not. And at his level of arrogance we will not be surprised to learn that he has publicly told off His Majesty our King. He has started with His Royal Highness Chief Chiyengele. Mr. Libingi needed to be aware that he did not himself help constitute the Kaoma committee, it therefore logically follows that he has no legitimate mandate to temper, let alone dissolve an establishment that was popularly elected. It must also be understood that the Mbunda population are mainly found in the Western Province, and in all the 5 districts of Kalabo, Kaoma, Lukulu, Mongu, and Senanga, there is only one committee in Kaoma. This position renders Mr. Libingi's National Chairmanship illegitimate. Mr. Libingi's 2 year term of office expired a long time ago; consequently Mr. Libingi is occupying the office of National Chairman illegally. He is therefore not mandated to act as National Chairman. Effectively speaking, there is now urgent need more than ever before to fill the vacancy of National Chairman along with other affected positions. It must also be noted that we are on firm ground, effectively coordinating the Mbunda chiefs of Western Province and we do not mind Mr. Libingi misleading the Lozis that Mbundas are part of their struggle for secession.

Dear Du,

First, I would like to extend my heartfelt congratulations to your election as the new Kaoma District Committee Chairman with your entire committee, on behalf of the national Executive Committee of Cheke Cha Mbunda Cultural and Writers Association and indeed in my on behalf. The task that lays ahead is very challenging, as you might know. However, I would also like to refer you to certain sections of our Constitution, which will need you and your entire committee's urgent attention:

- 1) Chapter 1, Item 4
- 2) Chapter 2, Item 5, section ii, iii, iv, vi
- 3) Chapter 4, Item 8, section ii, xi
- 4) Chapter 7, Item 2
- 5) Chapter 9, Item 13

Above information will help you recognise your limitations as a District Committee and organise your District and Branch Committees under you effectively. Anything that need the attention of the Provincial Committee, where you report, in this case Western Provincial Committee in Mongu or National Executive Committee in Lusaka, should be respected, no shortcuts. Remember, there is no Kaoma Cheke Cha Mbunda, as an entity but Kaoma District Committee of Cheke Cha Mbunda Cultural and Writers Association. As the National Chairman, I have the responsibility to defend our Constitution and I believe you are capable of helping me do just that. Remember, we are none political and none partisan.

We have attached copies of the Cheke Cha Mbunda Constitution and Certificate of Registration for you and your committee's use.

We once again want to welcome you in our National Service to our Mbunda Speaking People and the nation at large.

Best Regards,

Ndandula Libingi

**National Chairman**

**Dear Kaoma District Committee Chairman,**

It is now close to over two months since you disclosed to me in a telephone conversation, after I had phoned you, that there is a new Cheke Cha Mbunda, Kaoma District Committee elected. However, up to date the National Executive Committee has not received the names and addresses of the new office bearer according to the Cheke Cha Mbunda Constitution, Chapter 9, Section 13. Article (g).

Secondly, you advised me that the elected committee was interim. However, reliable information reaching my office is that, it is a fully fetched committee, comprising of: **1). Chairman - Mr. Du Mbandu Kalyangu. 2). Vice Chairman - Mr. Alex Nkunga. 3). Secretary - Mr. Lyale Mubanga. 4). Vice Secretary - Mr. Steven Kamiji. 5). Treasurer - Mrs. Mungole Mumba. 6). The District Committee structure above contravenes the Cheke Cha Mbunda Constitution, as the Constitution at Chapter 7, Section 11, Article 2 provides for only seven (7) District Committee office bearers. This is as a result of working in isolation, without notifying and seeking guidance from the National Executive Committee. Any election of a Provincial, District and Branch Committees is supposed to be authorised and observed by a N.E.C. member, as was the case in the election of the previous Committee. This again, is because one of the functions of the National Executive Committee is: ***Appoint, control through supervision of all Provincial, District and Branch Committees, National Sub Committees and regulate general membership of the Association and liaise with the Mbunda Speaking People Group, their Leaders and their Royalties***, according to Chapter 4, Section 8, Article (ii) of the Cheke Cha Mbunda Constitution.

Dear Mr. Mbandu,

Greetings..mulibati bakwetu?

I have read and digested your thoughts over our current position. Its unfortunately we didn't meet due to other commitments beyond my control. As a young man, My heart bleeds because of the stigma and harrassment i found myself in and my decision to go back to my roots and know were i come from did not come from without but it came because of the level of intimidation and harrasment i have so far faced from our so called Lozi brothers.

For some of you who may not know me; Am a very active young leader from Mushuwa and am the only remaining son of Kayongo Sitenge with royal blood to be Mweene Chiengele. I have worked very hard to bring up a famous youth organization called ARHA taking over from a lozi brother until it became a well recognised youth movement with Awards from Commonwealth, UN and USAID.

Am currently a regional consultant on Youth Development after resigning my Executive Director position due to harrasment which i can only discuss in person. It was due to this reason that my grandmother introduced me to my roots and my reason for joining this association.

To be honest, most of things are not clear and our freedom is yet to come in this land. I now understand the bigger role this association must play beyond issuing and refuting press statements. Our people are not safe and their safety can only be guaranteed the day they stop being second class citizens in Western Province. Our stance must be well known and our people must be well organized and always alert, we must share our burdens and become a

united people if we are to stand.

Reading the issues raised in this email by Kaoma Chairperson, it shows that we have a task to do among our lines before we can face a common fate. Lets grow this association, it has the potential to unify us the upcoming generations and our children. Let every Mbunda, wherever they are see the need to belong and offer solidarity to this association, this association is the only security to our belittled chiefs in Western Province.

Mr. Libingi and Mr. Mbandu, right now am in Lusaka but just on transit to J'berg, Singapo then my last destination will be Indonesia; I will be in Lusaka on 8th December and i can make a stop over in Kaoma on 9th December, please, as usual my numbers 0955152270, 0979051812. I need to learn more.

Kambunda kayandele simbu....you finish up... we need a unity of purpose otherwise we will always be victims of circumstances.

Regards

I am sorry to receive such a dirty statement from someone I would regard to be a "Prince" in the line-up to the Mbunda kingdom. This is not the way you solve problems. If anything, Mr. Livingi had on several occasions wanted to step down but had been advised to stay on by members of Cheke cha Mbunda.

If there are any problems, solve them amicably withing the Association not through Internet ! You never know who is reading your debate, it is not a healthy way of doing things. I personally had seen how the Livingi you are accusing today had sacrificed his personal resources together with a few others for the sake of Cheke. We do understand that Cheke was found by our parents but did they leave it at the position Cheke is today? Did Cheke own a website? Do you know what debate is going on the website which is trying to restore the Mbunda image which had been lost during the past twenty years or so?

Let us hold our fire and think before we leap is the right word and advice to all of us, who are trying to seek for positions in the so-called Cheke cha Mbunda it is not as easy as we see it from outside.

May the Almighty God guide us and forgive us for we do not know what we are doing

As we continue to wash our dirty linen in public, it would be wise to examine the circulation list of our communications. At present this list includes -- Barotseland Government<[barotseland.government@gmail.com](mailto:barotseland.government@gmail.com)>, [editor@zambiawatchdog.com](mailto:editor@zambiawatchdog.com)<[editor@zambiawatchdog.com](mailto:editor@zambiawatchdog.com)>; and many others I cannot figure out whether they subscribe to the Mbunda cause. Do we want these entities to be privy to our internal dialogue/fights? I am not convinced that Barotseland Government and Zambia Watchdog should be receiving each and every type of message from Cheke. Va Chairman may I suggest you reconstitute the circulation list, or have different categories for different types of messages.

Have a nice day

Nja bulyama ha mavuli na ku kandlelele kunangula ku tuna tambula kufuma ku Nganda. Malombo ange, Njambi a tu kwithule ngechi tu wane ngila ya ku twala vilika vya Mbunda kulutwe. Most times, once you have built an organisation or association to a level of greater recognition, the degree of disunity from within also increases. it is absolutely important to keep our eyes on the goal and not on individuals. Individuals contribute according to their earthly strengths and weaknesses. the idea for being in a group is to build on each other's strengths in order to reduce the negative impacts of our individual weaknesses. Again may God Bless us as we move this organisation to the next level.

Dear all,

I have keenly followed the discussions that have been going on in the past couple of days and some of it really makes sad reading. My suggestion is that we (the Cheke members at all levels) stop making any more comments on the matter till we have sat down, discussed and agreed as NEC on the way forward. In my view all the back and forth discussions over a sensitive matter like the Barotseland agreement should not have taken place the way it did. I believe there are bound to be dissenting views among us but the way we communicate those views matters; it may build or destroy the association, founded on clear and noble principles.

Since there is a date set for a NEC meeting let us use that forum for further discussion on the matter.

What ever the results of your Saturday the 8th NEC meeting, I propose that membership in Cheke should be addressed with emphasis on Commitment to duty. To those who have followed Cheke from the beginning even at a time of its inception commitment has been the fundamental objective of the Association. You will be told that despite having few participants, Cheke has been growing with distinction because those few who have been committed had done so with action not words. There should be action to mobilize people and hear the views of the people from the grassroots instead of imposing ideas of a few to represent the majority.

There Must exist among us the natural love for our Culture, tribe heritage and sacrifice for the sake of the organization and its people.

Respecting each others' views and ideas in this case whenever a dispute arise, there must be room for dialog .

Let us avoid at all cost washing linen in public\*

We are surprised therefore to hear Do Kalyangu Mbandu criticizing Mr. Ndandula Livingi publicly who has made a lot of contributions to Cheke cha mbunda instead of challenging him with better contributions as compared to whatever he has done. That is what happened when we voted out Mr. Kaliki and voted in Mr Livingi, there were physical changes and contributions ushered in by the later as compared to the former which happened and seen by many including the former chairman as a way in the right direction.. We are in a world of competition and as far as the Mbunda people and their history are concerned, we have a lot of challenges even here at the Palace ya Kamba ka Mbaao as its now called needs a lot of participants and not critics we are being attacked left right ,back and center but you are part of the royal family instead of coming to re-enforce the foundation of the Kingdom you are busy tearing Chekechambunda apart it is not wise. You are supposed to be the one giving advise to those who want to bring confusion in Cheke and not become the causer of the confusion. I suspect the issues attributed earlier were not of your own making, there must be someone somewhere influencing you.

I am waiting for your reply to this E-mail do not let our growing Mbunda Kingdom be blown off by selfish doctrines of destruction.

Let us enter the year 2013 more United and stronger than before as well as shame the devil so that we take our History and Cultural heritage to a higher level .

May the Almighty God help us to confess whenever we go wrong so that we change our habits, behavior and character for a better Mbunda Community.

Yours in the Service of the Community in Mbundaland,

Mbandu Mwe Mbandu Lifuti.

Your Majesty,

Seasonal greetings. It is with a heavy soul that I have to inform you about this development. I received you SmS this morning concerning your suggestion on how to proceed with R. Alexander. However Your Majesty, other members will have to proceed from where I have left.

Your Majesty, as you are aware, on 8th December 2012, we had an Extra Ordinary NEC Meeting, where the Kaoma District Committee issue was deliberated. Despite a one month advance notification of the meeting, the Kaoma District Committee decided not to attend, without appology. After the deliberations, I decided to step down as the National Chairman due to the fact that I cannot continue to serve, because it will be difficult for me to work with some office bearers of the Kaoma District Committee. However, the delegates persuaded me to continue. After serious considerations, I offered to continue, on condition that:

- i) The Kaoma District Committee is dissolved, with the erring office bearers of Chairman, Secretary and Publicity Chairman stopped from recontesting, for willfully violating the Constitution and gross indiscipline likely to bring the National Executive Committee (NEC) and the Association into disrepute, according to Chapter 2, Section 5, Article (vi) and Chapter 3, Section 7, Article (c) of the Consitution.
- ii) The Kaoma District Committee be notified immediately by the National Secretary, without the involvement of the National Chairman of their dissolution.
- iii) A team of five N. E. C. members travel to Kaoma to explain to the Mbunda fraternity and Mbunda Chiefs who have been written letters by the dissolved Kaoma District Committee, the succumstances leading to the

dissolution.

This was approved by the Extra Ordinary NEC meeting and logistics to implement was put in place. However, two weeks after the Extra Ordinary NEC meeting and without implementation of its resolutions, another idea was muted overriding the Extra Ordinary NEC meeting resolutions, without NEC having met. This is to send a delegation to Kaoma, to meet the Kaoma District Committee on a reconciliatory and fact finding mission, to pave way for an AGM. Good as the idea may sound Your Majesty, the Constitution has not been followed according to Chapter 4, Section 8, Article (xi).

Therefore, Your Majesty, with my conditions above to continue as National Chairman having been ignored and overturned, I remain stepped down and will not recontest the position at the AGM. I feel I have done my part in the four years and four months I have been in office, let others continue where I have left. I am not leaving the way my predecessor left. I will hand over to the Vice-National Chairman all the files of the Association in my custody and the full accounts reports during my tenure office. This is the only responsibility I am remaining with from today.

Your Majesty, understand me, this is for the good of the Association, the Mbunda fraternity and my family.

With your continued guidance, I am sure the interest of the Mbunda Speaking People will grow from strength to strength.

I remain,

Ndandula Libingi.

Disappointed I am, frustrated , but will have to put all this in the hands of the Almighty. I can have my own opinion in reserve for tomorrow, however you still remain a bona fide member of Cheke cha mbunda and should be able to advise whoever will be elected on how to handle this powerful Peoples' Association.

To all Cheke members and sympathizers I urge you to emulate the outgoing Chairman and a few others who have tirelessly sacrificed their time and resources for the betterment of taking Cheke to where we see it today, it has not been by accident but through hard work and commitment. Believe me it is easily said than done and this challenge is not only to you in Zambia but very much affecting those who are here in Angola, Namibia , Zimbabwe and Congo.

Last but not the least , I still urge us to abide by the Song "Tulikongweyeni" which I am sure will be released early next year and by following this song and take the meaning into practice, we shall avoid negative ways of approaching issues whenever they appear.

United we Stand divided we Fall

Va Chairman, if you can accept to be addressed that way in the interim. I do fully understand your frustrations deep as they are. Because it appears that we seem to tolerate insolence at the expense of other harworking members under the name of inclusiveness. It's important that when a meeting is called we must all attend in order to ensure that we sell our points of view. The Kaoma Chairman is the first to attack you terribly, and I wonder if he really had the interest of Mbundas at heart he would have done as he did.

That granted it is my appeal that it would be better to hold on and call for a general meeting. Maybe we may even have to forego the trip to Kaoma, and wait for de New Committee or if the Kaoma people will be coming it can be part of the AGM issue. For me I wish to reccount what you have achieved during your tenure:

1. You found the Makishi Intelligible Masquarade debate which was being hijacked by the Luvaless and took this matter to its conclusion. Your Office became a contact point for the Ministry of Community Development.
2. As soon as you took over the issue of the enthronement in Angola was just about to begin, you co-ordinated the trip to Angola and was able to have the King enthroned. We set a standard so high in Angola which has never been seen before.
3. Here in Zambia you have led the battle to recognise or bring to the awareness of the nine Chiefs. What was remaining was to bring all the chiefs together.
4. You have single handedly using your own resources printed the Mbunda calenders, and Christmas Cards in pursuit of publicising the identity of the Mbunda people. Some these are being quoted by some fellows who want to malign you as though you were a villain. Shame!
5. You through consultation reviewed the Mbunda History Book, Mbunda Version and updated it to include the enthronement King Mbandu 3 and the Translation of the Mbunda among others .
6. You have worked on the English Mbunda History book version, which is now in a draft form but complete.
7. Over the years you have led NEC to attend the traditional ceremonies in Angola and

Kabompo.

8. You have countlessly consulted NEC to attend several meetings with the Zambian Government and the Angolan embassy in Zambia in promoting the interests of the Mbunda people.

9. You have strongly represented the Mbunda History with the Wikipedia research pipe over the Ngangela deception or disillusionment, and they are in the process of correcting their perception in view of the arguments you consistently put forward.

10. You have currently been involved with the tracing the 'shadow figure' of alais R Alexander: who is claiming to be involved the research of the Mbunda people, and has even put up an emblem for what he terms as "Mbunda Kingdom". You have been able to at least draw similarities with the Linyungandambo "Barotseland State", though through the consultations - the input from Dr. Nyumbu, is what I think is what is at work, that may be dealing with shadows of intelligence here.

The above 10 facts are what makes you one of the best Chairmen that Cheke has ever had, like Dr. Bishop who immensely contributed to the strengthening the Association in terms of resources and otherwise. To insinuate as though you don't have right because you "came from Likumbi lya mize" is not only unfair but being irresponsible, cruel, inconsiderate and irrational. To think that Matters of Mbundas should be left to the people who daily live there implying that their views should be always be paramount is not only being unfair but antagonistic. Implying that you have had schemishes with other Cheke members without being factual is not good at all. In every organisation everything starts with the leader and ends with the leader. KK bears the successes and failures of the UNIP administration, so did FTJ, LPM, or indeed RB during MMD's 20 year rule.

Yes you have had your weaknesses like any mortal man. Who doesn't have? In a society characterised by inertia you had to take certain decisions as opposed to standing akimbo hoping things would solve themselves. You risked you family and business interests for something that would draw no benefits to yourself. Posterity will judge the Mbunda people harshly for hounding you out in like manner. Now that you wish to resign completely, our enemies will have a field day. Having served in Cheke under the Chairmanship of Dr. Kapitha, the Late Wampata and Reverend Kaliki, I have seen the Mbundas sickness: they like things done but not with commitment. They'll be quiet during good times but immediately something goes wrong, they'll charge at you like wounded buffaloes. We also suffer from the disease of lack of respect for leadership. The Lozis observed this and have had it recorded in books that Mbundas don't recognise authority as we often said "Nange nji Mwene". God help us. We need deliverance in this area. Our 'enslavement' in Western Province is purely our own making. In this world we should never think that someone will fight for your destiny. Mongu is economically sustained by Mbundas, but in what way have we used our economic power to enhance our destiny? Zero! When I went to school Mbundas would pass from Nos. 1- 10 on average yet after Grade 7 very few would proceed to Grade 8, the majority would drop off and get married. On the other hand Lozis would repeat several times until they pass. They appreciated the value of education. While we didn't. Now we want to view Lozis as enemies. Those who managed to become the elite, shunned their culture and identified themselves as Lozis or Luvala. Namwagas and Mambwes may predominantly be Bemba speakers, but will identify themselves as Namwagas and Mambwes. Mbundas like losing their identity. If we look at all the tribes whose languages are spoken widely we'll notice that the owners of those languages resolved to speak their languages at all cost. How come Lusaka is a Nyanja speaking area instead of Lenje or Soli? How come that Copperbelt is Bemba speaking than Lamba, how come Livingstone is a Lozi speaking area instead of Tonga? Why is it that the Aluyis adopted the Kololo (Silozi) instead of Siluyana? Why is it

that French was the official language of the British crown for 400 years? It is because the people of the dominant language asserted their languages and the others decided to subserviate theirs.

Whatever form Cheke will take from now on your record will speak for itself. I wish you God's abundant blessings.

I only pray that the people to be voted into office will not try to obliterate the works of the past, but rather build there on and go forward.

United we stand, divided we fall. May the Lord God Almighty help us and Guide the Mbunda people.

Kennedy N. Njamba.

Ba Chairman,

Sad sad day indeed. I agree totally with what uncle Ken has said.

Leadership is a very interesting field. Once a leader emerges and takes an organisation (including companies) to a high level, almost everybody begins to imagine they can lead the organisation better. Just look at history and how Kingdoms began to be divided and disperse. Your achievements cannot be taken away, you fought a good fight.

This is an important period in our history, it will define who and what Mbundas will stand for in the next century

Thank you.

Va Mbunda kumuli kwoshe,

I think you might have noticed that I did not just respond to good or bad correspondences we have had in the past. However, regarding the resignation of the "former Chairperson" ndolome - Ndandula Libingi, I wish to totally agree with the analysis of ndolome - Njamba regarding the good works of Mr Libingi.

As indicated by ndokathi Clare Limbwambwa, leaders emerge and do great works and some people think they can do better. At the moment, we MAY not have somebody committed, knowledgeable and fearless enough to lead a group of eople tasked to put the Mbunda Speaking People on the World Map!!!

Let us critically analyse our situation, before we make any decision that might take us several steps backwards.

I wish you all Merry Christmas and prosperous 2013.

Dr. Vincent Chiyongo
